

ULTRA DRC DRIP IRRIGATION

Plant Growth Promoter

Seaweed

Humic acid

Citric acid

Contents:

Minimum %:

SiO ₂	40.0
Fe ₂ O ₃	10.5
CaO	10.5
MgO	6.0
K ₂ O	1.0

Crops and Rate of Use:

Crop	Application Rate	Application Method (By Irrigation application)
Vegetables (Open Field, Green House)	20 kg/ha	1. 4 times/season 2. Two weeks after planting 3. Every 2-3 weeks
Potatoes		1. 15 days after the beginning of vegetative growth 2. Every 15 days
Fruit trees		3 times/season 1. During bud formation stage 2. After fruit setting 3. During fruit ripening stage
Ornamentals		1. 4 times/season 2. Every 2-3 weeks

Recommendation: To obtain specific recommendations tailored to your growing conditions and crop requirements, it is advised to consult with a local agronomist or agricultural extension service.

Features:

- Introducing Ultra DRC Drip Irrigation, a premium powder product crafted from naturally occurring volcanic rocks. This processed substance has an abundance of over 40 trace minerals, expertly micronized to achieve a particle size of 10 µm.
- Our innovative product boasts the incredible benefits of seaweed, a natural ingredient that delivers an array of plant nutrients, promotes optimal root growth and fortifies against environmental pressures.
- Humic acid is infused in Ultra DRC Drip Irrigation to enhance soil structure, nutrient availability, and stimulate plant growth.
- Our product features citric acid, a powerful ingredient that enhances the availability and uptake of essential nutrients by plants.

Benefits:

- Experience healthier plants and soils with Ultra DRC Drip Irrigation. Our formula optimizes soil structure, water holding capacity, and nutrient retention.
- Embrace sustainability and eco-friendliness with our product. By reducing the need for chemical fertilizers and pesticides, we help promote responsible agricultural practices.
- Our formula improves mineral nutrient uptake, enhances root development, and promotes seed germination and growth leading to optimal plant growth and development.
- Protect your crops from soil-borne diseases with Ultra DRC Drip Irrigation.
- Versatile and adaptable, our product can be used with a wide range of crops, soils, and environments for reliable and consistent results.
